

Russell's ADI Roadshow Austempered Ductile Iron

Are you fully up to date with this new engineering material, which is replacing steel forgings, fabrications and Aluminium components?
Arrange for our technical team to familiarise you with all the facts.

Our interactive CD ROM presentation contains all the answers to your questions with sections on:

- History and Development of ADI
- The Technical and Commercial benefits of ADI
- Process steps for ADI components
- European and American specifications
- Case Studies for various applications

These case studies illustrate various conversions from other materials where the customer has obtained tangible benefits.

Contact the ADI Roadshow team now to fix a date for a presentation at your premises

- Comprehensive information booklet to keep
- Best advice from UK market leader of ADI
- One to one presentation or groups of up to 25
- All equipment provided
